Washington, April 29.—The United States supreme court to-day remanded the case of the Gulf, Colorado & Santa Fo Railway Company vs. Hefley & Lewis in error to the county court of McMinn county, Tex. The case involved a construction of the interstate commerce tax. The court held that the statute of the state of Texas, which made the charges appearing on the face of the bill of lading conclusive and giving damages for each day's detention after the tender by the consignee of the charges shown by the bill of lading equal to the amount of freight charges, was inapplicable to interstate commerce shipments, and contrary to the interstate commerce law, which forbids railway companies to receive any greater or loss sums than those named in their posted rates.

woman handsome.

The satisfaction of attracting the attention of men is no more to most women than the gratification afforded by feeling equal to other women. Leaving out all considerations of comfort and looking only at the matter on the side of beauty, as woman's health should be the object of greatest care and thought.

Half of the women one meets are semi-invalids. Carelessness and ignorance and neglect have made it so. Failure to heed the warnings of outraged nature—failure to give the help needed by the most delicate and sensitive organs—little troubles ignored until they have become dominant—disease allowed every chance to spread and gain a settled seat—these things bring about the sunken, circled eyes, the hollow cheeks, the pale and sallow skin, the flabby, strengthless flesh, which characterize the appearance of the woman who suffers from "female weakness."

There is no reason, save that of carelessness, why the human female should not be as strongly healthy as the human male. There is no reason in nature for it—there is no excuse in the world for "female weakness." If proper care be taken, it need never exist. If proper care be taken, its existence can be stopped.

Dr. Pierce's Favorite Prescription has cured thousands of suffering women. It is a perfected specific for the troubles peculiar to them. It eradicates the disease, stops the dragging, life-sapping drain, and in a perfectly rational, natural way, builds up the wasted strength. It will bring bnoyant health. It will put roses into anomic faces—solid flesh in sunken places. It does away with the humiliating examinations and "local treatment" so much dreaded by modestly sensitive women. For thirty years, it has been successfully prescribed by Dr. Pierce, Chief Cousulting Physician to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y.

He spoke of the good work of the good sovernment' chies and city federations of Eastern cities and saw no reason why the same results could not be as easily acquired in Kanzas City.

HIS TRIP TO PALESTINE

Through the Holy Land. The admirers of Evangelist Wharton

The admirers of Evangelist Wharton had an opportunity of seeing him in a new role last night. Calvary Baptist church was filled to its utmost capacity when he arose to deliver his lecture upon "My Trip to Palestine."

Those who have been attending the Wharton meetings and have learned to admire the noted evangelist were expecting a treat last night, and they were not disappointed. He started out by explaining that a party of thirty, under his care and direction, left New York via the Anchor line. None of the party except himself had ever been across it decean before; he had been across six times. He, like the man who says he will never get drunk again, promised himself never to direct a short distance when twenty-five "And I," he said "was one of the twenty-five."

One of the best things said was when telling of the place where Moses was found among the builtrushes. He said: "I stood at that place and plucked "I stood at that place and plucked branches from the rushes that grew upon the bank. But someone will ask, "How do you know that was the place where Moses was found?" Let me ask you how you know it was not the place?" Then, drawing himself up, he said in that peculiar impressive way of his: "I am a believer; I believe a man to be a gentleman, honest and sincere, a woman a lady, pure and innocent, until I find otherwise. I do not go through the world doubting, turning my nose up with suspicion. I believe, and you can only imagine how much happier I am only imagine how much h
